Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

6. Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Niwa et al. (Page 2, paragraph 2 in specification).

Regarding claim 1, Niwa et al. discloses an optical waveguide (111), a tip formed at the free end (117) and a reflecting means (112) for reflecting light propagated from the light input/output end guided towards the microscopic aperture.
